PERSIANA Y CORTINA ¿AL MISMO TIEMPO?

¡Claro! Se llama VELUM

⇒ Vanos independientes que simulan una persiana vertical, con la caída, ligereza y sofisticación de una cortina.

⇒ Además, es la cortina con la onda más definida y uniforme del mercado.

⇒ Contamos con modelos Semi Traslúcidos y Dim Out.

ACCIONAMIENTO: ⇒ Manual o motorizado

TOLERANCIAS MANUAL:

Ancho mínimo: 1.00 mt

Ancho máximo: 4.00 m

Alto mínimo: 1.00 mt

Alto máximo: 4.00 mt

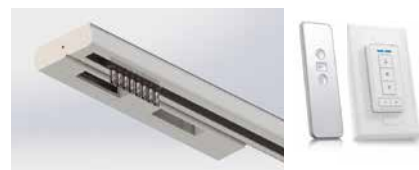

TOLERANCIAS MOTORIZADA:

Ancho mínimo: 1.00 mt

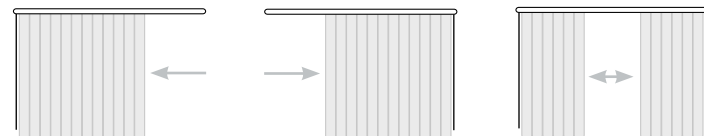

Ancho máximo: 6.00 mt

Alto mínimo: 1.00 mt

Alto máximo: 5.00 mt

APERTURA ⇒ lateral izquierda o derecha y exterior.

VANOS INDEPENDIENTES:

Esta cortina se conforma por vanos independientes que permiten el paso del aire, crean movimiento y permiten pasar personas u objetos entre ella.

Gracias a esta estructura, si un vano se daña o desgasta, es muy fácil reemplazarlo. Una solución práctica y económica.

PERSONALIZACIÓN:

Gracias a los vanos independientes, puedes personalizar tu cortina Velum con diferentes colores, ya sea en gradiente, intercalado, o como tú quieras.

SISTEMA DE GIRO EN PERSIANA MOTORIZADA 130 GRADOS

(MOTOR ULTRASILENCIOSO):

Este sistema permite filtrar la luz conforme a las necesidades del momento. Cada vano cuenta con una red translúcida en el centro que permite visibilidad y el paso de luz por completo al estar 90 grados rotada. Ahí, puedes rotar los vanos para ajustar el ángulo y así direccionar y/o reducir la entrada de luz e incrementando la privacidad.
